EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Bing Ai on July 1st, 2004.

2. The application has been amended as follows:

In the claims:

Claim 16:

line 3, insert --operable to amplify optical energy that is guided in said inactive core material-- after "an active cladding material"

Claim 25:

line 4, delete "forming", insert --surrounding said waveguide core to form--

line 4, delete "with said waveguide core"

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance: 1-3, 5, 7-10, 16-29 are allowed because the prior art fails to teach or fairly suggest an optical disk-shaped resonator, which is in the shape of a disc, formed of a silicon core portion in a silicon material, and a cladding layer surrounding said silicon core portion, **said cladding layer made of an optically active material**; and configured to amplify optical energy that is guided in said silicon core portion, and said silicon material fabricated to include a microelectronic structure. Both Ho et al. ('496) and Ho et al. ('070) fail to suggest a combination of disked shape resonator and active cladding material surrounding the inactive core made of silicon material.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
